

Overview

LSDA cabinet locks put the emphasis on versatility. Cam locks are packed with all the parts you need for securing many types of doors and drawers, with multiple key-pull positions. Tubular cam locks offer greater pick-resistance, when security matters. Cam locks are used on many cabinet doors and drawers.

- Sizes: 5 Sizes Available
- Finishes: Brass body, polished nickel finish
- Handing: Non-handed
- Diameter: 3/4" diameter cam locks, flat on two sides
- Cam: Cam rotates 90° or 180°, right or left; includes two cams. Key removable at your choice of 3, 6, 9, or 12 o'clock
- Keying: Pin tumbler with seven pins, uses popular tubular key blank. Universal design allows six different key functions. Available keyed alike (KA) and keyed different (KD) with several KA numbers available for most models.
