

HIGH SECURITY HASPS

American Lock high security hasps are designed to provide improved security on vehicles, trailers and gates. Applications include trailer and van doors, garages, sheds, barns, storage buildings, vending machines, utility rooms and warehouse doors.

TRUCK & TRAILER HASPS

A801 / A802

A801 and A802 bolt-on hasps are made of steel for maximum strength and durability. These hasps are designed so that hidden shackle padlocks (A2500, A2010 & A2001) can be attached directly to hasp for maximum convenience.

- A801 is designed for swinging doors
- A802 is designed for overlapping trailer doors with raised lip or seal
- Attached lock prevents the loss of a loose padlock
- Lock/Hasp combinations available

GATE HASP

A810

The A810 hasp protects padlocks from cutting attacks to provide maximum security for double-drive industrial gates with 1 5/8" or 2" frames.

- Simple 4-bolt installation, all mounting hardware included
- Adjustable slide fits gate openings from 3" to 6" wide
- Accepts padlocks with 7/16" diameter shackle & 1" vertical shackle clearance
- Padlocks sold separately – A700, A5260, A5200 series recommended
