MS1206 MINIATURE TRIM SAFE

ABOUT THE MS1206

This miniature drop safe container can easily be mounted under a counter or almost anywhere. The hinged door is key operated and features a 3/4 inch drop slot with an anti-fish baffle.

WHY A TRIM SAFE?

According to a survey by the American Society for Industrial Security, "The amount of money kept in a store's cash register was correlated with the likelihood of experiencing armed robbery." Reduce your chance of being robbed by making frequent drops to your safe from the register.

MOUNTING

Your MS1206 can be mounted anywhere near your register with the mounting hardware provided. The most common mounting location is under the counter next to the register.
