## PRODUCT INFORMATION

### SECURITY STORAGE

### KEY CABINETS

### Digital KeKabs®

HPC's **Digital KeKab's®** intelligent features include 2 levels of access, instant re-programming, usage indicator, and automatic lock-out. These units are battery operated and require no wiring or central processors. These locks run on two 9-volt alkaline batteries. A low battery indicator warns when batteries are low, and special jumper ports allow access of external power in the event of battery failure. With its all metal construction, your HPC Digital KeKab® is built to last.

#### Each HPC Digital KeKab® security control system includes:

- White Plastic Key Tags with bright nickel plated snap-hooks which can hold multiple keys on each snap-hook. The tags are numbered for easy identification.
- Durable Steel Key Racks that are slotted to store key tags uniformly for immediate identification.
- "Out Key" Control Tags that are made of yellow paper. They are used for accountability (to record information on loaned keys).
- A Numbered Key Control Booklet for lock location data.
- Unique powder textured painting process which provides an attractive and very durable finish. The neutral sand color allows them to be hung anywhere.
- Heavy Gauge Steel Construction with piano hinged doors and key panels provides a sturdy location to secure your keys.

### TECHNICAL INFORMATION

STOCK NO.	CAPACITY	DIMENSIONS	WEIGHT
KEKAB-DL65	65 keys	17" x 13" x 3.25" 432 x 330 x 83mm	10 lbs 4.5 kg
