

## Features & Benefits

### Attractive to all...but the intruder.

Cobra by Schlage is an architecturally designed programmable locking system. This attractive battery-powered electronic cylindrical lockset is ideal for new construction or retrofit applications where aesthetics are important and program flexibility at the lock is critical.

Cobra by Schlage is an excellent choice for schools, hospitals, multi-family units, retail stores, and commercial and government facilities looking to upgrade their access control from mechanical locks or other manufacturers' locks.
