

NEW

Model TL-55

Gooseneck Coupler Lock

New from Blaylock Industries, the Model TL-55 fits all RAM cast base gooseneck couplers 20,000 lb., 24,000 lb., 25,000 lb., 30,000 lb. and similar-size cast base gooseneck couplers. See chart below.

The TL-55 is similar to the standard TL-50, the industry-leading gooseneck coupler lock for the past two decades. Both products are made from heavy-duty aircraft aluminum and feature a 3/4" heavy duty lockpin. They will not rust.

The TL-55 should be used with the standard TL-51 to secure the adjustable top part of the coupler.

PATENT NO. D402602

The TL-57 deluxe gooseneck combo consists of one TL-55, one TL-51 and two TL-45 padlocks.
